

SUMMARY TABLE READ WITH ZOOM I

Introduction
 This table provides a summary of the findings from the research project, organized into a grid format. The table is divided into four main sections: **Neutral physical Relevant (NR)**, **Emergence and Character of the II**, **General Results**, and **II - Effects and Results**. Each section contains a list of items, each with a corresponding code and a brief description of the finding. The table is designed to be read with a zoom function to view the details of each item.

A	Neutral physical Relevant (NR)				Emergence and Character of the II												General Results												II - Effects and Results												Schizophrenia
